Education

Sister Nivedita University August 2023 – May 2027
Bachelor of Technology in Computer Science and Engineering *Newtown, WB*

Shri Santoshi Maa Academy April 2021 – June 2023
Higher Secondary Examination *Kolkata, WB*

Experience

RT Network Technology Pvt. Ltd. February 2026 – March 2026
Data Annotator *Kolkata, WB (Remote)*

- Evaluated 4500+ text, images, audio prompts to optimize LLM response accuracy by 95%.
- Labeled, transcribed, and evaluated text, image, and audio data to improve AI model accuracy.

Projects

PrepWise | Github | Live | *React.js, Node.js, Tailwind CSS, Firebase, Gemini Live API*

- Developed a web-based AI interview platform using React.js, Node.js, and Tailwind CSS with dynamic routing and state management for a robust, responsive design.
- Achieved 200+ users by developing a responsive and user-friendly interview platform with seamless workflows for interview practice, preparation, and performance tracking.

ZeroTrust Locker | GitHub | Live | *PyTorch, FastAPI, VirusTotal API, BPE Tokenizer*

- Built a 15M-parameter decoder-only Transformer (GPT-style) from scratch in PyTorch for zero-trust security event classification.
- Achieved 100% validation accuracy on an 8-class multi-field classification task using a custom BPE tokenizer with a 4,096-token vocabulary and cosine learning-rate schedule.

BuildPulse | Github | *React.js, Python FastAPI, PostgreSQL, Docker, Github OAuth*

- Developed a 0–100 repository health scoring system combining test results, build success rate, code coverage, and pipeline stability to provide an at-a-glance assessment of CI/CD reliability.
- Integrated GitHub OAuth and GitHub Actions APIs to authenticate users and track repository workflows, build status, failures, deployment history, and CI/CD performance metrics.

Technical Skills

Programming Languages: C, C++, Python (Competitive Programming), JavaScript.

Tools & Platforms: Git, GitHub, Vercel, Postman, VS Code.

Frameworks: React.js, Node.js, Express.js, MongoDB, Tailwind CSS.

Cloud & DevOps: Docker, CI/CD with Jenkins, GitHub OAuth, FastAPI.

Soft Skills: Problem Solving, Critical Thinking, Team Collaboration, Adaptability.

Achievements

Meta Professional Full Stack Developer Certificate May 2026 – July 2026

AIR 74 in Coding Ninjas SlayGround 2.0 Challenge October 2024 – November 2024

Google Cloud Arcade Premium Milestone Achiever May 2025

Postman API Certification April 2024 – June 2024
