SKILLS

Programming Languages	JavaScript, TypeScript, HTML5, CSS3, C++, Python
Tools & Platforms	Git, GitHub, Vercel, Postman, Figma
Frameworks & Libraries	React.js, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Three.js

WORK EXPERIENCE

Data Annotator <i>RT Network Technology pvt.ltd</i>	February 2026 — March 2026 <i>Kolkata, WB (Remote)</i>
- AI training / prompt evaluation - AI models by labeling, transcribing, evaluation text, images, and audio	

PROJECTS

PrepWise	Jan 2025 — March 2025
- Developed a web-based AI-based interview platform utilizing React.js, Next.js, and TailwindCSS for dynamic routing and state management to guarantee a robust responsive design. - Sign up and sign in using password/email authentication handled by Firebase. Easily generate job interviews with help of Vapi voice assistants and Google Gemini. - Take the interview with AI voice agent, and receive instant feedback based on your conversation. A sleek and user-friendly interface designed for a great experience. - Fully responsive design that works seamlessly across devices. - and many more, including code architecture and reusability.	
LaTeX Resume Builder {Repo}	March 2026 — April 2026
- Built an ATS-friendly resume with React.js, Tailwind CSS, Lucide React along with TypeScript for dynamic and type safety. - Dynamic, interactive components, state synchronization, and real-time side-by-side rendering encryption packages. Saves user inputs, active spacing presets, chosen accent colors, and custom sections inside the browser automatically. - Dynamically compiles the active dashboard state into valid, high-efficiency LaTeX source code that is fully compatible with standard LaTeX engines such as Overleaf.	
Gaming Website {Repo}	Dec 2025 — Jan 2026
- Build dynamic animations triggered by GSAP, React.js, and TailwindCSS for more engaging user experience. - Unique geometric transitions using CSS clip-paths to create visually stunning effects. Interactive 3D transformations that respond to user interactions for modern feel. - Structured fluid visual lists to dynamically adapt to varying mobile, tablet, and desktop display constraints.	

EDUCATION

Sister Nivedity University <i>Bachelor of Technology in Computer Science and Engineering – 6.21 CGPA</i>	August 2023 — May 2027 <i>Newtown, WB</i>
Shri Santoshi Maa Academy <i>Higher Secondary Examination – 64.2 CGPA</i>	April 2021 — June 2023 <i>Kolkata, WB</i>

ACTIVITIES

AIR 74 in Coding Ninja SlayGround 2.0 Challenge	October 2024 — November 2024
Google Cloud Arcade Premium Milestone Achiever	May 2025

CERTIFICATION

Professional Full Stack Developer Certificate - Meta	May 2026 — July 2026
Postman API Certification	April 2024 — June 2024
